REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art, either previously or newly cited, fails to show the instantly claimed invention. In particular none of the prior art shows an arcuate sealing/cutting element within the roller opening and projecting above the roller surface which has two radii projecting different distances above the roller surface. Of the newly cited references, Snelling and Lefevre show linear cutting elements projecting linearly into and above the roller surface. Lagain shows an arcuate cutting element moveable into and out of the slot in an arcuate table, but fails to show or suggest two radii. Bruckhauser et al. shows an arcuate cutting element extending both into and above the slot in a roller surface but also fails to show or suggest two radii for the cutting element. Bohn et al. shows a roller with a plurality of circumferential grooves each holding a linear perforating blade but fails to suggest an arcuate cutting element or different distances from the roller surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Osele whose telephone number is 571-272-1235. The examiner can normally be reached on M-F 9:30-6:00.
